Retake quiz

Question 1 of 3

Which process is **not** part of function-based analysis applied in story writing?

Delete

Create

Read

Understand

Correct

This step is NOT part of function-based process steps used in analysis: Create, Read, UPDATE, and Delete

Question 2 of 3

Why is backlog refinement usually held around the middle of the sprint?

so the PO has more time with the Stakeholders

so you can see Sprint progress

so the PO has time to get questions answered before Sprint Planning

Correct

Any questions raised by the team need to be answered before the Story can be part of the next sprint.

so the PO can schedule time with the technical expert

Question 3 of 3

What is the time window you should be using for release planning?

three to six months

Correct

This is the correct release planning window since it's near enough to accurately predict.

six to nine months

one month

nine to twelve months
